Publication Charges

This journal is an Open Access publication and an article-processing charge (APC) is levied on articles that are accepted for publication by the Editors.

To proceed, please click View Publication Charges which will take you to another window in order to select the relevant payment option.

Once the payment option has been confirmed you will return to this page where you must select the Proceed button below in order to complete your submission.

If your institution, society or other organization is a member, the APC amount may be wholly or partly covered by the membership arrangement. For an article to be eligible for APC coverage through institutional membership, the author submitting the article must be affiliated with the member institution.

APC waivers or discounts are granted on a case-by-case basis to authors with no or insufficient funds. Such waivers or discounts can be requested after you have clicked View Publication Charges and a decision will normally be made within two working days.

Submission of the article to the journal can be completed once the payment method has been agreed. Any applicable APC can be paid after editorial acceptance and must be paid prior to publication.

APCs for articles submitted from EU countries are subject to VAT (Value Added Tax). EU customers must supply their VAT Number to be exempt from VAT. UK Customers are not exempt from VAT. If you choose to pay by a method other than by credit card, an administration surcharge will be applied.

This means that we do not charge subscription fees for access to our research content, believing instead that immediate, world-wide, barrier-free open access to the full text of research articles is in the best interests of the scientific community.

I hope that you are happy with this, and are able to submit your manuscript to us for peer review.
